

Biographical Statement for Suzanna Ryan

Suzanna Ryan, MS is the owner of Ryan Forensic DNA Consulting and acts as their primary consultant. She provides DNA case review and consulting services, expert testimony, and DNA-related training to attorneys and to members of the law enforcement community. Ms. Ryan has a Master of Science in Forensic Science from the Virginia Commonwealth University in Richmond, VA. She began her forensic DNA case-working career at the Bode Technology Group, Inc – a private DNA laboratory in Springfield, VA where she also performed DNA analysis on victim's of mass disasters such as the Alaska Airlines crash, the Bosnian war, and the World Trade Center. Ms. Ryan also has forensic DNA casework experience in two government crime laboratories, the Florida Department of Law Enforcement and the Charlotte-Mecklenburg Police Department Crime Lab. Suzanna's last laboratory position was as Forensic DNA Technical Leader of an ASCLD/LAB accredited private DNA laboratory in San Diego, CA.

In her 11 years of forensic DNA experience, Suzanna has personally worked thousands of serology and DNA cases and has testified over 40 times as an expert witness in seven states.

Ms. Ryan is also involved as a DNA instructor with the Virtual Learning and Training Academy (www.vleta.net) and the Police Policy Studies Institute (www.theppsc.org). She is also an adjunct faculty member at National University in San Diego where she has taught the Advanced Forensic Serology and DNA course and the Advanced Criminalistics course in the Master of Forensic Science program.
